Little Bits of Paper, Little Cans of Paint, Make Most Any Person's Home Look Like What it Aint!

-And, of course, the time to begin making your home look illferent is right now-before the rush keeps paper hangers on the jump and painters working double time.

Moreover, early beginnings make for successful results as you have time as well as opportunity to work out your heart's desires, to choose artistically, to have the work done carefully.

Come see the new display racks, where the daintiest of hedrooms, stately drawing rooms and richly furnished dining tooms seem to grow before your eyes through the beauty and appropriateness of the papers which will cover their respective walls

They are all here, just waiting for you to come and craim them for your own, and our new way of displaying them makes their recognition prompt and easy.

The unexpected is always occurring in Vitagraph's Tom Terriss predaction, "Dead Mon Terl No Tales" The blg spectacular scene, that of blowing up a saling vossel, is staged early in the stelly and from that point to the final close out a series of strange events which are highly dramatic are depicted. The speciator is never corrain just what is going to happen next and he is held in suspense until the end; of the picture.

Do you know that lumber and building material prices are down forty percent?

Do you know that you can repair or remodel cheaper than at any time in the past five years?

Do you realize that every day you wait not only inconveniences you but costs you real money?

Building material prices may come down more—we think not but every day you delay in getting the new garage deprives you of the use of it, and causes you to pay out money for garage rent.

Every day you delay roofing the barn and the home, makes your property more liable to damage from storm. Every day you put off inside repairs the trouble increases and the total expense becomes

Do your repairing and remodeling at the present bargain prices and get the benefit now. We are running a special builders' sale, offering materials at unusual prices.

break all the rules of the service get-tug here, Alminic," he said, "Pos-session is nine points of the law, and in this case it, was rather imperimi-thal Mr. Dismike shouldn't find the outfit without a head and these offices of ours unoccupied." He rose, stretched his arms over his head like a thred his arms over his head like a lifed boy, and reached for the guilf cap he kept to wear when he webt nut to knock around in the shops and yard. "Let's go up to the hotel and see if we can break into the cafe, Jinnile," he finished up, "Later on, we'll wire Mr. Chadwick; but that can wap, in for here's had a source man, in for haven't had a square meal in four

With everybody supposing he had a resigned and left, the country, I guess there were all kinds of a nine-minutes' wonder in Portal City, and all along the Short Line, when the word went out that Mr. Norcross was back on the Job and running it prairy much the same as it nothing had imposted

After supper, on the night of his return from the hide-out, he had sent a long gode message to Mr. Chadwick and a short one to President Dunton; and though 1 didn't see the reply to either, I guess Mr. Chadwick's an swer, at least, was the right kind, he-cause our track renewing campaign went into commission again with a slam and all the reform policies took a sure-enough fresh start and began to

hump themselves, with Juneman working the newspapers to a finish.

We heard nothing further from Mr Dismuke, the portly gentleman in the tan spats, though he still stayed on at the Bullard. We saw him occasionally at meni times, and twice he was eating at the same table with Eateh and Henckel. That placed him all right for us, though I guess he didn t need much placing

I wondered a little at first that Mr Norcross didn't take the clue that Branderby, the Mountaineer reporter, had given us and tear loose gaug that had trapped him. He filth't; or didn't seem to. From the first hour of the first day he was up to his neck pushing things for the new company formed for the purpose of putting Red Tower out of business and he wouldn't take a minute's time for anything else

Of course, it says itself that Untch never made any more proposals about selling the Red Tower plants to the Citizens' Storage & Warehouse people after the hoss got back. That move went into the discard in a hurry, and the Consolidation outfit was busy get-ting into its fighting clothes, and try ing to chock the wheels of the C. S & W. with all sorts of legal obstacles Franchise contracts with the rail

road were fushed up, and injunctions were prayed for. Ripley waded in and what little sleep be got for a week or two was in P.Alman cars, smatched while he was rushing around and trying to keep his new clients, the C. St. W. fells, our called a contemps. & W. folks, out of fall for contempt of contt. He dod it. Little and quiet and smooth-spoken, he could put the

legal leather into the biggest builties the other side could hire. Luckliy, we were an interstate corporation, and when the local courts proved evocked Riples would find some was to feek the case out of their and put it up to some Federa' judge.

some Federa' indge.

Around home in Portal City things were just singuering. Between two days, as you might say, and right some after Mr. Norcross get back, we acquired a new chum on the head-quarters force. He was a young fellow named Turbell, who looked and talked and acted like a cow pinch just in from riding line. He was carried on Mr. Van Britt's nayroll as an "extra" or

Every human being is a potential sportsman or sportsweman. That is the principal reason why our New Series "Glenbrook 6-44" has won so many friends.

This smart five passenger car is the very next thing to a living, breathing companion. The smooth, even flow of power is almost magic in effect as it accelerates from five to twentyfive miles per hour in nine seconds flat.

Steep hills, of course, are mere play and you will return home after a day's journey refreshed, relaxed and gloriously exhilarated. Such is the "Glenbrook" -a surprise and revelation to the most critical motorist.
